

CLAIM AMENDMENTS

Please amend the claims as follows:

1 1.(*currently amended*) A paintball gun barrel with compression chamber comprising:
2 an inner tube having a breech end and a barrel end;
3 said inner tube having a first length measured from said breech end to said barrel end;
4 said inner tube having a muzzle end located between said breech end and said barrel
5 end;
6 said inner tube having a second length measured from said breech end to said muzzle
7 end;
8 said inner tube having a plurality of tear-shaped portholes ~~apertures~~ located between
9 said breech end and said muzzle end;
10 an outer tube having a breech end and a muzzle end;
11 said outer tube having a length measured from said breech end to said muzzle end;
12 said outer tube sized to accommodate a width of said inner tube;
13 said outer tube having a plurality of tear-shaped portholes ~~apertures~~ located between
14 said breech end and said muzzle end;
15 said outer tube having an inner surface and an outer surface; and
16 said outer tube having a filter lining said inner surface.

1 2.(*currently amended*) The paintball gun barrel with compression chamber of claim
2 1 wherein:
3 said inner tube portholes ~~apertures~~ are dispersed as parallel helixes; and
4 said inner tube portholes ~~apertures~~ extend from said breech end to said muzzle end.

1 3.(*currently amended*) The paintball gun barrel with compression chamber of claim
2 1 wherein:
3 said [[inner]] outer tube portholes ~~apertures~~ are dispersed as parallel helixes; and
4 said [[inner]] outer tube portholes ~~apertures~~ extend from said breech end to said
5 muzzle end.

1 **4.(original)** The paintball gun barrel with compression chamber of claim **1** wherein:
2 said filter is porous;
3 said filter is spongy; and
4 said filter extends from said outer tube breech end to said outer tube muzzle end.

1 **5.(original)** The paintball gun barrel with compression chamber of claim **1** wherein:
2 said inner tube has external threads located at said breech end;
3 said outer tube has internal threads located at said breech end; and
4 said outer tube internal threads match said breech end external threads of said inner
5 tube so that the outer tube is removably and rotatably attachable to said inner tube.

1 **6.(original)** The paintball gun barrel with compression chamber of claim **1** wherein:
2 said outer tube length is equal to said inner tube second length.
